Heather Morehouse Ettinger, Ph.D., is a partner in the law firm of Troutman Sanders LLP and is based in the firm's New York office.

Heather focuses her practice on intellectual property due diligence and transaction drafting, intellectual property litigation, and patent counseling and procurement in the biotechnical and pharmaceutical fields. She regularly handles domestic and international patent portfolios, and due diligence studies for clients, including major corporations and research institutes. She also regularly counsels in Hatch-Waxman issues and has significant Hatch-Waxman litigation experience. She has extensive experience performing due diligence, agreement drafting, counseling, and litigating on patent matters in areas such as recombinant molecular biology, pharmaceutical formulations, genetically modified plants, enzyme and other large molecule technology and small molecule chemistry. She has procured patents covering inventions in a wide range of fields in the life sciences. She has counseled clients in multi-billion dollar intellectual property transactions.

Heather earned her J.D., cum laude, from Fordham University School of Law and her Ph.D. in biological and biomedical sciences from Harvard University. She received her B.S., summa cum laude, in biology from Tufts University.

While at Tufts University, Heather was elected to Phi Beta Kappa.

Heather is admitted to practice in New York and New Jersey, and before the U.S. District Court for the Southern District of New York. She is a registered patent attorney with the U.S. Patent and Trademark Office.
