

Corporate

Business today is global, fast-paced and constantly changing. To remain competitive, address potential risks, and take full advantage of emerging opportunities, businesses of all sizes and in every industry need innovative, effective legal counsel.

Troutman Sanders has the depth and broad-ranging experience to handle our clients' most sophisticated corporate needs in an efficient and timely manner. We work with clients at every stage, from arranging money for startups, negotiating mergers, joint ventures, and acquisitions, and leading public offerings, to advising on corporate governance matters. To help clients achieve their business goals, we offer nimble, creative legal advice based on proven best practices. Our lawyers are consistently recognized for excellence in the industry by *Chambers USA*.

We offer an integrated network of offices across the United States and China. Our strategic international presence and understanding of local markets and industry-specific issues allows our lawyers to handle complex global transactions across the world. We have a robust practice dedicated to cross-border transactions, with particular emphasis on Canada and Asia. Our clients come to us from a number of key industries, including financial services, energy, real estate, technology, pulp and paper, healthcare and telecommunications.

Even the most straightforward corporate matter may involve significant tax, environmental, employee benefits, intellectual property or regulatory issues. To provide coordinated legal solutions, we pursue a comprehensive team approach that draws on our wealth of knowledge and experience in virtually every key aspect of civil and commercial law.

We provide counsel in the following core areas:
