

Trustees / Fiduciaries / Receiverships

Trustees in bankruptcy, indenture trustees and receivers typically have great influence in the efficient, successful resolution of matters involving distressed businesses and troubled assets. The lawyers of Troutman Sanders' Financial Restructuring and Insolvency practice have extensive experience representing Chapter 11 and Chapter 7 trustees, indenture trustees in proceedings under the Bankruptcy Code, Securities Investor Protection Corporation (SIPC) trustees, and state and federal court receivers. We also advise standing, appointed and elected trustees, financial institutions in their capacity as indenture trustees, and collateral agents and equity receivers. Our lawyers also have experience serving as court-appointed fiduciaries.
